ABOUT INNOVATIONS24

Innovations24 is a business and AI transformation consultancy. We help organizations modernize across data, applications, infrastructure, cloud and AI — and keep them moving.

FLEXIBILITY • DELIVERY SPEED • RIGOR

OUR APPROACH

Continuous transformation for the enterprise.

Innovations24 is an enterprise-architecture and digital-transformation consultancy. We help enterprises modernise across data, applications, infrastructure, cloud and AI — and keep them moving.

THE PATTERN WE SEE

Data in spreadsheets

Decisions made on numbers nobody fully trusts, reconciled by hand over days.

Disconnected processes

Legacy tools and manual handoffs drive exceptions, rework and slow approvals.

Knowledge walking out

Repetitive work consumes experts whose judgment is never captured anywhere.

FROM FRAGMENTATION TO AGENTIC OPERATIONS

01

Unify

One governed source of truth — data, projects and documents — on Azure, Fabric and SharePoint.

02

Standardize

Streamlined, automated processes with Dynamics 365 and the Power Platform.

03

Activate

AI agents and copilots on trusted data — removing manual toil and surfacing risk early.

MISSION

To make continuous transformation achievable for the enterprise — turning complex technology estates into momentum across data, applications, infrastructure, cloud and AI.

VISION

A world where enterprise technology never stalls — where architecture, modernisation and intelligence compound continuously.

20+ organizations transformed

Continuous transformation, realized in weeks — not quarters. We assess, modernise and optimise on a loop, so enterprise technology never stalls.

CLARITY · MOMENTUM · RIGOR · PARTNERSHIP

WHAT WE DO

Seven capabilities. One continuous loop.

Color is how the portfolio is navigated: seven services, one spectrum. We meet you anywhere on the loop — assess, modernise, optimise, repeat — on the Microsoft stack you already own.

AI & Innovation

Agents and copilots on trusted data — from pilot to production.

Data Transformation

A governed lakehouse and real-time reporting on Microsoft Fabric.

Business Applications

Dynamics 365 and the Power Platform, automating the work.

Infrastructure & Cloud

Secure, scalable Azure foundations — modernised, not ripped out.

Application Rationalization

Fewer, fitter applications — lower cost, less risk.

PPM Optimization

Portfolio and delivery visibility, from demand to outcome.

Enterprise Architecture

The blueprint that keeps every capability moving together.

Built on your Microsoft stack

Azure · Microsoft Fabric · Dynamics 365 ·
Power Platform · SharePoint

Hues carry meaning — a reader recognises a service by its colour. Gradients express the relationships and momentum between capabilities, and the industries we serve.

WHY INNOVATIONS24

Fast & flexible by **design**.

Boutique speed and flexibility, with enterprise discipline — every outcome figure traces to a real engagement; modelled targets are labelled as such.

Flexibility

We adapt to your stack and your people — building on the Microsoft tools you already own, never ripping them out.

Delivery Speed

Fixed-scope fast starts that land outcomes in weeks, not quarters — startup pace, enterprise discipline.

Experience

Boutique senior teams, proven across regulated, document-heavy enterprises from SMB to Fortune 50.

20+

ORGANIZATIONS
TRANSFORMED

Weeks

TO OUTCOMES, NOT
QUARTERS

L1→L4

GOVERNANCE MATURITY
LIFT

WHAT THAT MEANS FOR YOU

Delivered in weeks

On-time manufacturing past 90% in three months; pharma signatures from 8 days to 1.

Fits your stack

We build on the Microsoft tools you already own — no rip-and-replace.

Scales with you

The same playbook from SMBs to Fortune 50 and top-10 pharma.

People-first

We adapt to your processes and your people, with low disruption.

Book a Health Check

A fixed-scope diagnostic, tailored to your industry. You leave with a maturity scorecard, your top three opportunities, a rough ROI and a recommended fast-start — yours to keep.

ENERGY & OIL / GAS

Capital decisions, on data you can trust.

Innovations24 unifies fragmented project and demand data into a single, agentic source of truth — de-risking capital delivery on the Microsoft stack you already own.

40%

FEWER COMPLIANCE EXCEPTIONS

— Fortune 50 Energy, Oil & Gas — PMO and demand management

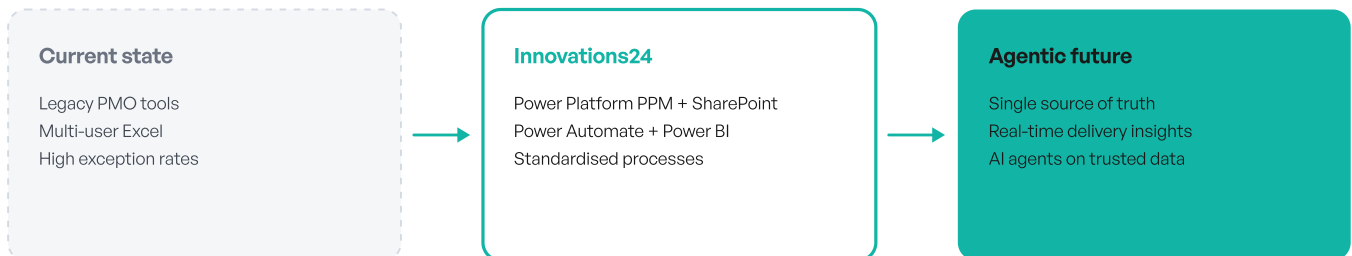

30%

FASTER DELIVERY SCHEDULE ACROSS PORTFOLIOS

20

HOURS/MONTH SAVED ON FINANCIAL REPORTING

FROM FRAGMENTATION TO AGENTIC OPERATIONS

WHAT WE DID

- Standardised the strategic demand and operational budget exception process
- Unified fragmented project data on a Power Platform PPM tool + SharePoint
- Automated review and approval flows with Power Automate
- Surfaced delivery health in real time with Power BI

WHAT CHANGED

- ◆ A single, trusted source of portfolio, programs and project truth
- ◆ 30% average faster delivery schedule across portfolios
- ◆ 40% fewer compliance exceptions
- ◆ 20 hours/month saved on financial reporting

Fast & flexible by design

We optimized a Fortune 50 PMO and lifted schedule efficiency 30% by adapting to a tangle of legacy tools and spreadsheets — not by ripping them out. Boutique team, enterprise outcomes, delivered in weeks rather than quarters.

FLEXIBILITY · DELIVERY SPEED · RIGOR

Capital Delivery & Data Health Check

A diagnostic that maps your project data and surfaces the top three focus areas — yours to keep.

[Book a Health Check →](#)

MANUFACTURING

Scale your operations — not your headcount.

Innovations24 turns manual, spreadsheet-bound operations into a connected, automated backbone — so growing manufacturers run predictably at scale.

90%+

ON-TIME MANUFACTURING
IN 3 MONTHS

— Emerging plastics manufacturer — scaling across two new plants

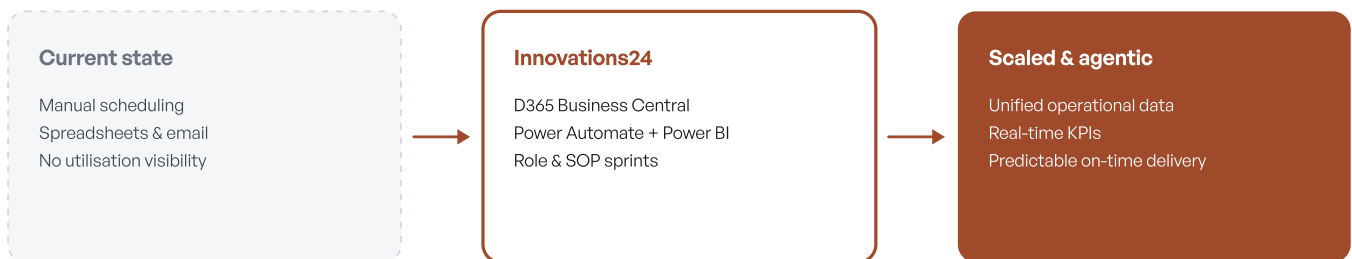

20%

LOWER LICENSING COST

50%

FASTER ONBOARDING

FROM FRAGMENTATION TO AGENTIC OPERATIONS

WHAT WE DID

- Ran people-first sprints to clarify roles, RACI and SOPs
- Consolidated point tools onto Dynamics 365 Business Central
- Automated handoffs and approvals with Power Automate
- Built real-time production KPIs in Power BI

WHAT CHANGED

- ◆ 90%+ on-time manufacturing within three months
- ◆ Month-end close cut from four days to two
- ◆ 20% lower licensing cost
- ◆ Onboarding 50% faster, turnover down

Fast & flexible by design

On-time delivery passed 90% within three months and consolidating systems cut licensing 20% — all while scaling alongside the client across two new facilities. We move at startup speed with enterprise discipline.

FLEXIBILITY · DELIVERY SPEED · RIGOR

Scale-Readiness & Operations Health Check

A focused diagnostic that scores your operations for scale and pinpoints the three fastest wins — yours to keep.

[Book a Health Check →](#)

FINANCE

Close faster. Decide on numbers you trust.

Innovations24 replaces spreadsheet-bound budgeting and reporting with a governed, real-time financial backbone on Microsoft Fabric and Power BI — so finance leaders reallocate capital with confidence.

80%

LESS MANUAL REPORTING

4→1

DAY MONTH-END CLOSE

L1→L4

GOVERNANCE MATURITY (OPM3)

— Fortune 50 Energy, Oil & Gas — finance & capital governance, 300+ projects

FROM FRAGMENTATION TO AGENTIC OPERATIONS**Current state**

Excel & SAP plug-ins
Broken links, manual decks
High forecast variance

**Innovations24**

Fabric Lakehouse + Power BI
Azure Data Factory + DevOps
Governed financial model

**Trusted & agentic**

Single financial truth
Hourly refresh, audit-ready
Agents flag variance early

WHAT WE DID

- Stood up a governed Fabric Lakehouse + Power BI model
- Migrated legacy SSIS into Fabric pipelines (Data Factory / DevOps)
- Established a data Center of Excellence
- Upskilled analysts in DAX and Power Query

WHAT CHANGED

- ◆ 80% less manual reporting and consolidation
- ◆ Month-end close from four days to one
- ◆ Portfolio review from two days to one hour
- ◆ Governance maturity L1 → L4 (OPM3)

Fast & flexible by design

We promoted changes from dev to prod in under an hour and cut the close to a single day — migrating off fragile Excel macros without halting a single reporting cycle, on the Microsoft stack they already owned. Boutique team, enterprise outcomes.

FLEXIBILITY · DELIVERY SPEED · RIGOR

Finance Data & Reporting Health Check

A focused diagnostic that scores your reporting and close and surfaces the three highest-ROI fixes — yours to keep.

INSURANCE

Faster cycles, cleaner audit trails.

Innovations24 digitizes document-heavy claims and underwriting workflows and unifies fragmented policy data — cutting cycle times while keeping every approval traceable and compliant.

8→1

DAY CYCLE (TARGET)

90%

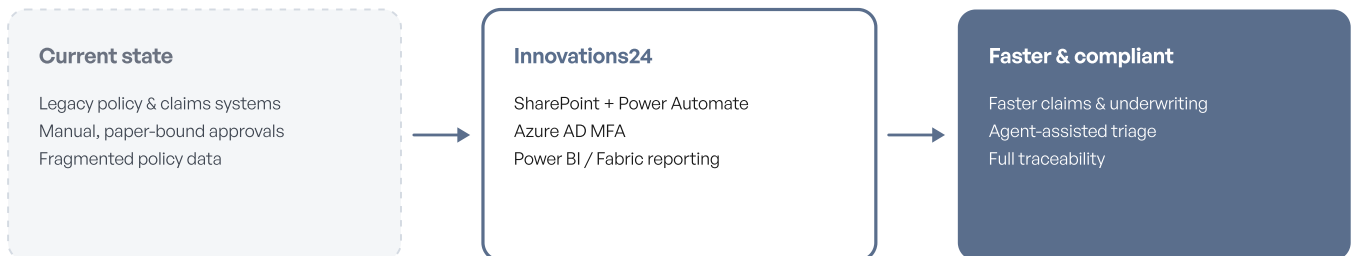

AUDIT FIRST-PASS (TARGET)

75%

LESS MANUAL REWORK (TARGET)

— Illustrative — modeled on Innovations24 results in adjacent regulated, document-heavy workflows

FROM FRAGMENTATION TO AGENTIC OPERATIONS

OUR APPROACH

- Digitize claims and underwriting approval workflows
- Unify fragmented policy and claims data
- Secure access with Azure AD multi-factor auth
- Add agentic AI for document triage

EXPECTED OUTCOMES

- ◆ Approval cycle ~8 days → 1 day (target)
- ◆ 90% audit first-pass (target)
- ◆ 75% less manual rework (target)
- ◆ Full traceability, audit-ready by design

Fast & flexible by design

We apply the same proven, compliant approach that took pharma signature cycles from 8 days to 1 and cut financial consolidation effort 80% — adapted to your claims and underwriting workflows, on the Microsoft stack you already own, delivered in weeks rather than quarters.

FLEXIBILITY · DELIVERY SPEED · RIGOR

Claims & Compliance Health Check

A workshop that scores your claims and underwriting workflows and surfaces the three highest-value priority areas — yours to keep.

[Book a Health Check →](#)

HEALTHCARE & PHARMA

Compliant approvals, in a day — not a week.

Innovations24 digitizes GxP approvals into validated, audit-ready workflows — cutting cycle time without adding compliance risk.

8→1

DAY SIGNATURE CYCLE

75%FIRST-PASS FDA MOCK
AUDIT**85%**SHORTER APPROVAL LEAD
TIME

— Top-10 global pharmaceutical company — 37 sites, 2M+ pages digitised

FROM FRAGMENTATION TO AGENTIC OPERATIONS

Current state

Couriered paper signatures
37 regulated sites
No audit traceability

Innovations24

SharePoint + DocuSign
Azure AD MFA + Power Automate
Validated to 21 CFR Part 11

Compliant & digital

One-day signature cycle
Full traceability
Audit-ready by design

WHAT WE DID

- Harmonised e-signature approvals on SharePoint + DocuSign
- Secured identity with Azure AD multi-factor auth
- Automated routing with Power Automate
- Validated the system to 21 CFR Part 11 across three farms

WHAT CHANGED

- ◆ Signature cycle from eight days to one
- ◆ 75% first-pass FDA mock-audit compliance
- ◆ 85% shorter approval lead time
- ◆ 25% fewer batch-release deviations

Fast & flexible by design

We cut signature cycles from 8 days to 1 and reached 75% first-pass audit compliance — standing up three SharePoint farms and migrating legacy archives without disrupting 37 live, regulated sites. Speed and validation are not a trade-off.

FLEXIBILITY · DELIVERY SPEED · RIGOR
